

Registration

The participation to auction is subordinated to the previous registration of the possible purchaser, who should fill in the participation form before the auction to enter into competition. Each possible buyer is gifted with a numbered shovel which should be showed to the auctioneer at the acquisition of a lot.

The International Art Sale srl has full faculty to reject the bid in hall by people unprovided with numbered shovel and by people warned not to participate to its own auctions.

The participation to auction may also be via telephone, if the buyer has filled in, at least 12 hours before the beginning, the appropriate form to be contacted by the International Art Sale srl about the requested lots.

Estimates

The International Art Sale srl shows an own valuation for each lot, ranging between a minimum and a maximum price, which do not anyway affect the purchasing value. Such valuations are to be considered only indicative, as they are liable to be revised.

Weights of gems

The International Art Sale states that the weight of gemstones are estimated and are therefore to be considered as indicative.

Colored gemstones

The International Art Sale states that the colored gems without certification, may have undergone treatment designed to improve their appearance.

Conditions of watches

The International Art sale warrants for wristwatches and pocket watches only the working of movement, but does not vouch for hidden defects, substitution of mechanical elements, dial and case, unless differently specified.

Jewels and watches

The International Art sale analyses and estimates free of charge the goods aimed to be included in its own auctions.

It carries out expertises on jewels on behalf of a third party to Patrimonial use.

It suggests to customers the gemmological analyses of their most important gems, at least to emphasize diamonds, rubies and sapphires.
